OEM INSECT AND BIRD POOP CLEANER

Product Lineup

- OEM Insect and Bird Poop Cleaner 400ml
- OEM Insect and Bird Poop Cleaner 4L
- OEM Insect and Bird Poop Cleaner 18L
- OEM Insect and Bird Poop Cleaner 20L

1. Product Concept

This product is an alkaline-based cleaner developed to safely and effectively remove dried insect residues and bird droppings from vehicle surfaces.

Its alkaline components penetrate and break down hardened organic matter, softening it for easy removal without damaging paint or glass.

Simply spray and wipe gently — ideal for removing stubborn stains from bumpers, hoods, and windshields.

2. Composition & Key Features

- Type: Insect and bird dropping remover
- pH Level: Alkaline
- Recommended Usage Amount: Approx. 10 ml per vehicle
- Applicable Materials: Paint, glass, plastic trim
- Finish: Clean and clear surface

Key Features

- Alkaline formulation chemically softens and dissolves dried insect and bird waste
- No scrubbing required – spray, wait, and rinse or wipe
- Safe for paint and coatings when used as directed
- High penetration performance for hardened contaminants
- Suitable for pre-wash and pre-coating surface preparation

3. Performance & Characteristics

Cleaning Performance

Alkaline ingredients break down organic residues, loosening and softening them for effortless removal.

No strong physical rubbing is required, reducing the risk of surface damage.

Safety

Despite its alkaline nature, the formulation is balanced to minimize impact on paint and glass surfaces.

Prolonged contact and use on hot surfaces should be avoided.

Ease of Operation

A simple spray-and-wait process allows fast and efficient removal, suitable for professional and general use.

Non-Applicable Contaminants

Does not remove inorganic scale, mineral deposits, or metallic contamination.

Use appropriate dedicated products for such contaminants.

4. Recommended Application Areas

- Front bumper
- Hood
- Windshield
- Mirrors and headlight covers

5. Application Method

1. Rinse the surface to remove loose dirt or sand.
2. Without drying, spray the product directly onto the affected area.
3. Allow a few minutes for the cleaner to penetrate and soften the contaminants.
4. For stubborn spots, apply a paper towel over the area and spray again to enhance penetration.
5. Gently wipe or wash with a sponge and rinse thoroughly with water.
6. Wipe dry to finish.

(Avoid application on hot panels or under direct sunlight.)

6. Precautions During Application

- Do not use under direct sunlight or on hot panels.
- Do not allow the product to dry on the surface.
- Test on unpainted plastic or rubber before full application.
- Always wear protective gloves during use.

7. Summary of Product Properties

- Product Type: Insect and bird dropping cleaner
- Form: Liquid (spray type)
- Usage per Vehicle: Approx. 10 ml
- pH Level: Alkaline
- Target Contaminants: Insect residues, bird droppings, organic dirt
- Material Safety: High
- Application Difficulty: Very easy
- Country of Origin: Japan

8. Remarks

- Designed exclusively for insect and bird dropping removal.
- Safe for use on paint, plastic, and glass when used correctly.
- Always rinse or wash after application.
- This document is based on internal testing and field data; performance is not guaranteed.
